

# Do you need help with a loved one whose behaviour has changed?

**North East Behavioural Supports Ontario (NE BSO)** can help wherever the **older adult or caregiver** may live or may be...at home, in a long-term care home, in hospital or elsewhere.

We recognize that all behaviour has meaning and is often a form of communication or unmet need for an **older adult with dementia and/or mental health diagnosis**. As a result, they may express themselves in many ways including:

- ***Changes in Mood***
- ***Yelling or Cursing***
- ***Striking Out***
- ***Unexpected Sexual Expression***
- ***Meaningful Exit Seeking***
- ***Other Responsive Behaviours...***
